Benefits of Dance Partner Rotation

By Richard Fiore

(Licentiate, (LAB, LAR, T) Imperial Society of Teachers of Dancing)

Dance partner rotation refers to the periodic changing or rotating of partners during a dance session. This practice is most common in group classes. While many folks participate in partner rotation, some opt to dance solely with one partner throughout the session. The benefits of rotating partners and the role it plays in our learning experience are numerous.

Ballroom dancing is dependent on understanding how to manage a complex array of signals. It utilizes a nonverbal language that takes place between two partners on the dance floor. This silent dance language is the engine that drives lead and follow communications. It creates the ability for partners to clearly understand their lead and follow roles. As these skills are sharpened over time, leads become clearer and easier to read and following becomes more effortless.

There are many benefits to be gained from dance partner rotation. Those who participate in this practice will generally learn faster and become more refined in their dance skills over a shorter period of time. A large part of the lead and follow experience involves the physical connection between partners. This is one of the most crucial elements of partner dancing. The shift of weight that is conveyed from the core of the body through the body's frame needs to be accurately coordinated by the leader and properly sensed by the follower. Here are some key aspects of the physical connection between partners:

Arm Connection: This refers to how actively the arms are linked between partners. Assuming Isaac Newton was correct in that every action has an equal and opposite reaction, then it must also apply to the dance hold. For example, if one partner is applying excessive force, the other will have to counteract this with an equal and opposite force. There are various ways in which partners connect in a dance hold. An incorrect amount of arm force, i.e., too much or too little is something that can be more readily identified when dancing with various partners.

Direction of Applied Force: Arms should be toned and connected in such a way that the forces are kept parallel to the floor at approximately chest level. If for example the follower pushes downward through the joined hands, it will result in a misalignment of the applied force and hence create a weak and misdirected connection at the topline of the body. This pushes the leader away and is likely to destabilize both partners. The leader is forced to compensate in this scenario. Conversely, there are also instances where the leader applies forces that are improperly directed, resulting in a similar outcome.

Common Center: The joined hands should be maintained at approximately midway between both partners at a point known as the common center. Some dancers may tend to dominate the hold by pulling the joined hands toward their body. This action dominates the position of the joined hands thereby impeding a relaxed movement throughout the dance. It can also offset the dynamic balance between partners. The partner who does this is communicating with the other to move forward past their central balance point. This becomes an awkward experience for both partners throughout the dance.

Hand Grip: The joined hands should be comfortably clasped. It is not uncommon to experience a tight grip. This is always problematic as it can create a significant amount of tension in the hold. Clamping down tightly on one's thumb is a classic problem in partner dancing. Imagine what could happen to fingers that are tightly gripped especially during an underarm turn. Conversely, too light a grip is also problematic.

There are many other factors that can affect the quality of lead and follow such as foot tracking, posture, balance and head and neck position. All of these characteristics become more noticeable when dancing with various partners. These factors would otherwise be hidden to a large degree and difficult to detect while dancing exclusively with one partner. As such, the ability to recognize and resolve such anomalies is more immediate during partner rotation. Couples who dance solely with one partner are more likely to be unaware of bad habits as they tend to unconsciously compensate for each other's mistakes.

Rotating partners affords everyone an opportunity to refine their dance skills. It fosters a more diverse understanding of partner dance dynamics and also helps one to avoid reinforcing bad habits. Refined lead and follow skills make for a more stylish and enjoyable experience on the dance floor. As dancers sharpen their skills in this manner, leads become clearer and easier to read and following becomes more effortless making the overall experience more enjoyable.

Ballroom Dancing at Adelphi University

Professional Studio with wood floor & mirrors!

Refine your skills in the most popular ballroom dances! Best practice syllabus based techniques.

Join us at Adelphi University Garden City, NY Campus for an Amazing 11 week Dance Class

Class dates to be announced!

Description: This class offers an opportunity to gain experience in social / ballroom dancing. It is an excellent choice for those looking to develop fundamental dance skills as well as building on previous experience. The instructor will break down all dance figures and combine them to form amalgamated routines. Best practice syllabus-based techniques in timing, feet positions, alignment, footwork, and lead and follow will be demonstrated. This class is suitable for first time dancers as well as those with previous experience. It is designed to build confidence and enhance social enjoyment on the dance floor. Social dancing gives you a more positive outlook on life!

Enrollment with a partner is recommended; however, singles are welcome. Participants should wear comfortable clothes and leather bottom shoes or dance shoes. Sneakers or rubber bottom shoes are not recommended.

Candidate Dances: Foxtrot, Rumba, Waltz, Cha Cha, Swing, Salsa/Mambo, Bachata, Tango & Meringue

Instructor: Richard Fiore – Dual Licentiate, Imperial Society of Teachers of Dancing

Location: Adelphi University, One South Ave., Garden City, NY 11530 - Woodruff Hall Dance Studio

To Register: \$125/person for general admission. **Registration with a partner is recommended.** Call Noreen DeNicola at (516) 877-4260 or email ndenicola@adelphi.edu

Acceptance

By Michael Ditkoff

Michael Ditkoff has taken ten years of private ballroom, latin, swing and hustle lessons; eight years of private Argentine Tango, Waltz and Milonga lessons; three years of Embodied Yoga to improve his frame, and six months of Alexander Technique to improve his posture. He was also a dance host on three cruise ships.

Email Michael at: tangomaniac@optimum.net

Last month, I wrote about a rude leader who called his partner "a beginner" as if it was a curse. (The follower has four years of experience, is a delightful partner, and definitely NOT a beginner.)

At a Montreal tango festival, noted Argentine Tango teacher Daniel Trenner said, "There's no security in tango. You don't know what will happen when you dance with a stranger." He also said, "If people simply do not like you, for whatever non-dance reason, they are not going to dance with you, regardless of your dance proficiency." That's a tough pill to swallow. You'll never find out the reason.

Argentine Tango can be a very close, intimate, and personal dance. But both partners have to accept themselves - - and their partner. I'll never forget the tanda I had with Natasha. She held me so closely, if she held me any closer, I'd be behind her! We danced a deeply

intimate, personal tanda to DiSarli, possibly the most emotional of all typical orquestras. We did absolutely nothing except move together and enjoy each other's company. This was only one of many wonderful tandas. (After a while, I stopped counting.) We didn't try to test each other, pushing the limits of each other's skills. LESS was definitely MORE.

Some dancers can't accept their partners' skill level. Some leaders test their followers and will terminate tandas if the partner "isn't good enough." Everybody dances tango for different reasons. I remember when I lived in Washington, DC, a follower auditioned leaders to be her boyfriend based on how well they danced. (April 2021 issue.) I guess I wasn't "boyfriend material" because she never danced with me, until - - many years later at the Chicago Mini-Tango Festival. She recognized me and invited me. (Was I now "boyfriend material?") It's easy to misjudge a potential partner's skill level from observation. A good leader can't overcome a poor follower and a good follower can't overcome a lousy leader.

It's not negotiable. I'm not suggesting accepting every partner because that's not possible. I can't accept followers who squeeze my hand, shove my arm behind my shoulder, or hold it out like flagging a taxicab. I can always accept a follower who has the fundamentals of dance, regardless of skill level. (April 2018 issue.)

The Bravo Television Network debuted "Dancing Queens," a show about five competitive women. You see them practicing (and sometimes fighting) with their pro. Tuesdays at 9 PM.
