Lock Step Basics

By Richard Fiore

(Licentiate, (LAB, LAR, T) Imperial Society of Teachers of Dancing)

The lock step is a dance figure element that utilizes a series of steps in which there is a locking action of the moving foot as it approaches the standing foot. This can be danced from the forward direction i.e., forward lock step or from the backward direction i.e., back lock step. As such, the moving foot crosses either behind or in front of the standing foot respectively. The weight is then transferred to the locking foot. The lock step can be danced in a variety of dances; however, it is most frequently used in cha cha and quickstep.

This figure is danced with a triple step action that is similar to a chasse. In cha cha it is danced over three steps on the syncopated part of the rhythm, i.e., 4&1 or 2&3, taking 1/2 measure of music to complete. In quickstep it is danced over four steps for a duration of 1 1/2 measures. In quickstep, the 1st step is a preparation step needed to establish the outside partner dance position. The step pattern for a lock step is step, lock, step whereas the chasse step pattern is step, close, step. Because of their timing similarity, a lock step can be used as an alternative to a chasse step. In cha cha, a lock step is commonly danced as a forward and back progressive movement. For example, in cha cha the leader steps forward with the right foot followed by the left foot crossing behind the right foot to end with the right foot forward and slightly side. At the end of the 2nd step, the lower part of the leader's left leg becomes locked behind the right leg at the ankle until the right foot moves on the following step. The follower's foot action is the natural opposite over each step. As the leader moves forward with a locking action behind the standing foot, the follower moves backward with a locking action in front of the standing foot.

The following tables give the timing, feet positions and footwork for the leader and follower over each step, in quickstep. The right and left foot are annotated as RF and LF respectively. Also, while not expressly stated in the table, this figure starts and ends with the leader facing diagonal to the wall room alignment.

Leader's Forward Lock Step for Quickstep

Step	Timing	Feet Positions	Footwork
1	S	RF forward (outside partner, feet in-line)	heel-toe
2	Q	LF diagonally forward	toe
3	Q	RF crosses behind LF	toe
4	S	LF diagonally forward	toe-heel

Follower's Forward Lock Step for Quickstep

Step	Timing	Feet Positions	Footwork
1	S	LF back (feet in-line)	toe-heel
2	Q	RF back	toe
3	Q	LF crosses in front of RF	toe
4	S	RF diagonally back	toe-heel

While the tables give a basic outline of the lock step in quickstep, there are specific techniques that need to be applied in order to optimize dancing this figure. This is especially important in quickstep because of its fast tempo. Any vagueness in the lead such as improper weight distribution or incorrect body shaping will not allow the follower to accurately interpret the lead action. Here are several essential technique tips for dancing a lock step in quickstep.

Swing DANCE NIGHT

WED, SEPT. 13 & TUE SEPT 26
 WITH LIVE MUSIC BY
HUNTINGTON BLUES ALL STARS!

7PM-8PM DANCE LESSON
8PM OPEN DANCE - \$15/\$10

344 NEW YORK AVE. HUNTINGTON, NY 11743
 info@industrymakers.art | wwwindustrymakers.art

Leader's Technique Tips:

Commence with the weight settled downward through the left leg with a slight body rotation to the right. The center of the body needs to be shaped slightly to the right while the upper body is shaped slightly more to the right. This helps to initiate and maintain the outside partner dance position used in this figure. Be careful to step diagonally forward on the 2nd step. This will lead the lady to cross her foot in front of her standing foot on the 3rd step. It is also important for the leader not to tip or sway his body line throughout this figure.

Follower's Technique Tips:

The follower has to be especially vigilant in sensing weight distribution through the leader's shaping action. She has to maintain an upright position with her upper body positioned over the standing leg. The follower must also resist the urge to tip her body forward or backward. Her body should only rotate circularly around the hips. She should commence to move downward and leftward while lengthening the right side of her body.

The lock step radiates an attractive appearance that enhances any dance routine by its characteristic triple step action and shaped body movements. It can also be danced in succession for an additional effect. The lock step can be used to initiate a variety of syncopated movements that add a nice touch to the rhythmic flow of the dance.

Visiting the Argentine Tango Mecca Part 3

By Michael Ditkoff

Michael Ditkoff has taken ten years of private ballroom, latin, swing and hustle lessons; eight years of private Argentine Tango, Waltz and Milonga lessons; three years of Embodied Yoga to improve his frame, and six months of Alexander Technique to improve his posture. He was also a dance host on three cruise ships.

Email Michael at: tangomaniac@optimum.net

First, a correction from the last issue about cabeceo. The leader looks around to find a partner. If the follower is looking at him and does not look away – giving him the mirada, in essence, telling him "I would like to dance with you. Please invite me to dance" – he gives the first cabeceo, the invitation. She accepts the invitation by returning the cabeceo. From the last issue, the follower should remain in her seat until the gentleman comes to the spot on the dance floor closest to her table and looks the follower straight in the eye. Only then does the follower know for certain it is at her that he is looking.

In the last two issues, I wrote about tango pilgrims going to Buenos Aires. There are a lot of differences in Argentine and New York milongas. I already wrote about some of the codigos de la milonga, the codes of Argentine milongas. Some Americans forget that Argentina is a foreign country, and the Argentines follow their social codes and mores. Argentines have the "home country advantage" and Americans have to adapt to their rules, not the other way around.

You may be familiar with the expression, "When in Rome, do as the Romans." The same expression applies to Buenos Aires. Argentines (not Argentinians!) don't change their shoes at the milonga. They wear the same shoes they walked into the milonga. Only a foreigner changes shoes at a milonga. If you want to change your shoes, change before you enter the milonga. Don't be surprised if you don't dance if you change your shoes at the table. As previously written, Argentines want connection and changing shoes shows you're not an Argentine. Argentines have standards and they don't want to chance dancing with somebody who won't deliver connection.

I remember waiting 90 minutes before I tried cabeceo at my first milonga. Eventually, my invitation was accepted. It was an anxiety provoking situation because all the sitting followers observed my dancing. They don't want to dance with a lousy leader, especially one with a poor embrace. They also observe a stranger's floorcraft. They don't want to dance with a leader who treats his partner as a battering ram and involves them in collisions. I listed a YouTube video of an Argentine milonga showing little dance space in the June issue.

Going to Buenos Aires can be exciting adventure – if you're prepared.
