Lock Step Alternative in Cha Cha

By Richard Fiore

(Licentiate, (LAB, LAR, T) Imperial Society of Teachers of Dancing)

The lock step is a figure that utilizes a series of steps in which a locking action of the moving foot occurs as it approaches the standing foot. This article will discuss common applications of this figure as an alternative to the chasse step that is normally danced in cha cha.

The forward and back progressive cha cha basic is danced using the repetitive pattern of a rock step followed by a chasse step sequence. Each basic is danced to the rhythm 1 2 3 4 &, 1 2 3 4 &. This represents two measures of 4/4 rhythm in which ten

steps are danced. It is customary to commence with the first step to the side on count 1 as a preparation step. This is followed with a rock step on counts 2 and 3. The leader then steps forward on the right foot on count 4. His left foot closes to his right foot on count & to end with his right foot forward on count 1. Since the lock step shares the same triple step action and syncopated rhythm as the chasse, it can be used as an alternative to the chasse in the forward and back progressive cha cha basic. For example, after the rock step, the leader's right foot moves forward followed by the left foot crossing behind the right foot to end with right foot forward and slightly side. The lady's foot action is the natural opposite over each step. Therefore, as he moves forward with a locking action behind his standing foot, she follows backward with a locking action in front of her standing foot. See the table below for a more detailed breakdown of the feet positions for this figure.

It is important to use proper footwork when dancing a lock step. This describes the part of the foot that is in contact with the floor over each step. In rhythm dances such as cha cha, the footwork is predominantly initiated on the ball of the foot. For example, the footwork for a forward lock step over three steps in cha cha is ball-flat, toe, ball-flat respectively. On the 1st and 3rd steps, the footwork is initiated on the ball of the foot followed by the foot softly lowering to the flat part of the foot with the heel in light contact with the floor. The 2nd step is taken solely on the toe in this figure. It is important not to take heel leads when dancing forward steps in cha cha.

The following tables give the timing, feet positions and footwork for the leader and follower over each step. The right and left foot are annotated as RF and LF respectively. The 1st step is initially taken to the side as a preparation step in cha cha. It can then be danced as a continuous progressive pattern. One extra step is shown in the table so that the 2nd lock step can be fully described.

Leader's Forward and Back Lock Step for Cha Cha

Step	Timing	Feet Positions	Footwork	Notes
1	1	LF to side	ball-flat	Preparation step
2-3	2,3	RF back Transfer weight forward to LF	ball-heel ball-flat	Rock step back Replace weight forward
4-6	4&1	RF forward LF crosses behind RF RF forward and slightly side	ball-flat toe ball-flat	Lock step (forward)
7-8	2, 3	LF forward Transfer weight back to RF	ball-flat ball-heel	Rock step forward Replace weight back
9-11	4&1	LF back RF crosses in front of LF LF back and slightly side	toe ball-flat ball-flat	Lock step (back); count 1 is associated with the following measure

WED, OCT 4 | **WED, OCT 11**

With **The Willie Steele Band** | With **The Haymakers**

Lesson 7-8pm (\$15) | Live Music & Open Dance floor 8:30-11:30pm (\$5)

344 NEW YORK AVE. HUNTINGTON, NY 11743
info@industrymakers.art | www.industrymakers.art

Follower's Forward and Back Lock Step for Cha Cha

Step	Timing	Feet Positions	Footwork	Notes
1	1	RF to side	ball-flat	Preparation step
2-3	2,3	LF forward Transfer weight back to RF	ball-flat ball-heel	Rock step forward Replace weight back
4-6	4&1	LF back RF crosses in front LF LF back and slightly side	toe ball-flat ball-flat	Lock step (back)
7-8	2, 3	RF back Transfer weight forward to LF	ball-heel ball-flat	Rock step back Replace weight forward
9-11	4&1	RF forward LF crosses in behind RF RF forward and slightly side	ball-flat toe ball-flat	Lock step (forward); count 1 is associated with the following measure

The 'Triple Chas' is a figure that uses an attractive implementation of the lock step. It is danced using three continuous sets of lock step sequences forward and back with syncopated action on both 4&1 and 2&3. Each series of three continuous lock step sequences is separated by a rock step that serves to change the direction from forward to back and back to forward. Triple Chas commences as outlined in the table and then continues with additional lock step sequences forward and back respectively. Using lock steps in cha cha provides a dynamic way to enhance a cha cha routine as it adds a unique styling to the dance.

Ballroom Dancing at Adelphi University

Professional Studio with wood floor & mirrors!

Refine your skills in the most popular ballroom dances! Best practice syllabus based techniques.

Join us at Adelphi University Garden City, NY Campus for an Amazing 11 week Dance Class

REGISTER NOW!

Fall 2023 Schedule

Description: This class offers an opportunity to gain experience in social / ballroom dancing. It is an excellent choice for those looking to develop fundamental dance skills as well as building on previous experience. The instructor will break down all dance figures and combine them to form amalgamated routines. Best practice syllabus-based techniques in timing, feet positions, alignment, footwork, and lead and follow will be demonstrated. This class is suitable for first time dancers as well as those with previous experience. It is designed to build confidence and enhance social enjoyment on the dance floor. Social dancing gives you a more positive outlook on life! Enrollment with a partner is recommended; however, singles are welcome. Participants should wear comfortable clothes and leather bottom shoes or dance shoes. Sneakers or rubber bottom shoes are not recommended.

Dates: Fridays – 9/15, 9/22, 9/29, 10/6, 10/13, 10/20, 10/27, 11/3, 11/10, 11/17 and 12/1

Time: 7pm-8:30pm

Candidate Dances: Foxtrot, Rumba, Waltz, Cha Cha, Swing, Salsa/Mambo, Bachata, Tango & Meringue

Instructor: Richard Fiore – Dual Licentiate, Imperial Society of Teachers of Dancing

Location: Adelphi University, One South Ave., Garden City, NY 11530 - Woodruff Hall Dance Studio

To Register: \$125/person for general admission.
Call Noreen DeNicola at (516) 877-4260 or email ndenicola@adelphi.edu

Stay on Course

By Michael Ditkoff

Michael Ditkoff has taken ten years of private ballroom, latin, swing and hustle lessons; eight years of private Argentine Tango, Waltz and Milonga lessons; three years of Embodied Yoga to improve his frame, and six months of Alexander Technique to improve his posture. He was also a dance host on three cruise ships.

Email Michael at: tangomaniac@optimum.net

I like World War 2 submarine movies when the captain prepares the ship to fire torpedoes. "Up Scope! Bearing- Mark! Range-Mark! No angle on the bow. Estimated speed- 25 knots. Forward Torpedo Room, open outer doors. Hold course. Fire One." What does this have to do with dancing? More than you think.

Writing about the line of dance seems to be a waste of time because so many dancers don't follow it so I'm trying an alternate route to explain why some are unable stay on course.

In Argentine Tango, the basic figure is walking to the cross. (November 2021.) (This figure is a crutch for beginners and should be replaced with ocho cortado after a degree of proficiency.) The problem is the leader doesn't use the "hook step" around the follower's foot. Instead, the leader steps diagonally to avoid any contact with the follower's foot. Stepping diagonally takes the man off course

by steering to the left. If the leader continues to lead the walk to the cross, he steers increasingly to the left until the couple is in the middle of the floor or worse, in the line of dance on the other side of the room rushing into oncoming traffic.

A similar problem occurs with a poorly led molinete which is supposed to be a circular movement. For this to happen, the leader has to turn in a circle, pivoting 360 degrees on one foot, which rarely happens.

A big problem is the leader moves elliptically, not circularly, before his partner steps. The leader leaves the partner behind and whips her around, but not in a circle. The follower is spun out of orbit and moves further away from the leader on the back step and is then pulled towards him on the forward step. Taking extra space and not staying on course leads to collisions.

Followers can ruin a dance if they don't collect their weight after every step. I've danced with followers who stepped back with feet wide apart, so their body position shifts to one direction and then reverses into the other direction. It feels like I'm dancing with a windshield wiper. (I hope there isn't any windshield wiper wash.) It's difficult, if not impossible, to stay on course.

These dancers don't have the fundamentals of dance (April 2018 issue) because they aren't collecting their weight after every step.

It's been four years since the passing of Tony Miraglia. He was the DJ at Valerie's Kings Park and Ronkonkoma dances. He is remembered.
