Opening to Promenade: The Art of Flow and Direction in Ballroom Dance

By Richard Fiore

(Licentiate, (LAB, LAR, T) Imperial Society of Teachers of Dancing)

Email Richard at: rf1111@yahoo.com

Few movements capture elegance and partnership as beautifully as the transition into promenade position. This is the moment when two dancers open together and travel in the same direction. Opening to promenade is both a technical skill and an artistic expression. Whether performed in the sweeping motion of foxtrot, the smooth rise and fall of the waltz, or the dramatic shaping of tango, promenade movement creates variety, direction and emotional character within a dance routine. At its core, promenade position occurs when the dancers form a subtle V shape with their bodies, opening slightly away from one another while

maintaining connection through the frame. Instead of facing each other, both partners face diagonally in the same direction of travel prepared to move forward together. This dance position gives the appearance of expansion and travel, making it one of the most visually pleasing elements in ballroom dancing.

The transition into promenade is far more complex than simply opening the partnership. It requires timing, balance, lead-and-follow communication and coordinated body rotation. Dancers who master the art of opening to promenade can transform an ordinary sequence into a flowing and expressive moment that captures the audience's attention. One of the key principles behind opening to promenade is body alignment. In standard ballroom styles, the leader initiates the movement through the center of the body rather than with the arms. The torso begins to rotate while maintaining a stable upper frame. The follower senses this rotational lead and responds by shaping into promenade position while maintaining body contact and connection. If either dancer over-rotates or disconnects from the frame, the movement will appear awkward or forced.

Frame Integrity plays a critical role. During the turn, many beginners mistakenly separate their elbows or collapse the upper body. This weakens communication between partners and disrupts balance. Strong ballroom technique requires consistent posture, lifted alignment and connected movement through the back and core muscles. The arms should support the frame without becoming rigid or disconnected from the body's motion. Another challenge dancers face when opening to promenade is managing momentum. Since ballroom dances often involve rotational forces, dancers must carefully control speed and direction. Excessive force can cause over-turning while insufficient rotation may leave the couple misaligned. Experienced dancers understand how to regulate momentum through foot pressure and body flight with coordinated timing. Teachers often encourage students to practice promenade transitions slowly before attempting them at full speed. Slow practice helps dancers develop awareness of alignment, balance and connection. Exercise focusing on body rotation, frame stability and foot placement can significantly improve consistency. Once the mechanics become reliable, dancers can add expression, shaping and performance quality.

Opening to promenade in Foxtrot creates smooth traveling actions and dynamic floorcraft. Since foxtrot prioritizes continuous movement, opening to promenade must feel seamless. Skilled dancers avoid abrupt changes and instead allow the body rotation to blend naturally into the next traveling figure. In advanced routines, promenade transitions may include sway, shaping and subtle changes of direction that challenge both technical ability and musical interpretation.

Opening to promenade in waltz often feels soft and romantic. The rise and fall characteristic of the dance allows the transition to unfold gradually. A classic example is the twinkle in American style and the whisk in International style. In this figure the dancers move through a shaped turning action before opening gracefully into promenade. The movement creates a sense of floating continuity as though the dancers are gliding effortlessly across the floor. Proper timing is essential because the turn must be completed precisely as the promenade shape develops.

Opening to promenade in Tango presents an entirely different interpretation of promenade movement. Instead of softness, tango emphasizes sharpness and dramatic intention. Opening to promenade in tango usually involves sudden and decisive rotation. The dancers maintain a lower center of gravity and stronger body tone giving the movement a staccato quality. The promenade position in tango often appears more compact and aggressive, reflecting the dance's passionate character. The transition is less about flowing expansion and more about precision and control.

One reason promenade movements are so important in ballroom dance is their contribution to choreography and floor navigation. Ballroom dancers share the floor with many other couples, particularly during competitions and social dance events. Opening to promenade allows couples to redirect movement efficiently while maintaining elegance. It opens opportunities for creative patterns and helps dancers avoid collisions without disrupting the flow of the dance.

Ultimately, opening to promenade represents more than a technical figure in ballroom dance. It symbolizes partnership, communication and shared direction. Two individuals move from facing one another to traveling together with common purpose and harmony. This visual and emotional transformation is part of what makes ballroom dance so captivating. When properly executed, the transition into promenade appears effortless to the audience even though it requires considerable discipline and coordination. It combines structure with freedom, precision with expression and technique with artistry. Mastering the transition to promenade is an important step toward achieving grace, confidence and true partnership on the ballroom floor.

Ballroom Dancing at Adelphi University

Professional Studio with wood floor & mirrors!

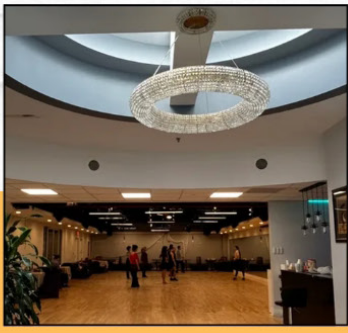

Refine your skills in the most popular ballroom dances! Best practice syllabus based techniques.

Join us at Adelphi University Garden City, NY Campus for an Amazing 11 week Dance Class

Fall classes starting in September!

Description: This class offers an opportunity to gain experience in social / ballroom dancing. It is an excellent choice for those looking to develop fundamental dance skills as well as building on previous experience. The instructor will break down all dance figures and combine them to form amalgamated routines. Best practice syllabus-based techniques in timing, feet positions, alignment, footwork, and lead and follow will be demonstrated. This class is suitable for first time dancers as well as those with previous experience. It is designed to build confidence and enhance social enjoyment on the dance floor. Social dancing gives you a more positive outlook on life! Enrollment with a partner is recommended; however, singles are welcome. Participants should wear comfortable clothes and leather bottom shoes or dance shoes. Sneakers or rubber bottom shoes are not recommended.

Candidate Dances: Foxtrot, Rumba, Waltz, Cha Cha, Swing, Salsa/Mambo, Bolero, Tango & Meringue
Instructor: Richard Fiore – Dual Licentiate, US Imperial Society of Teachers of Dancing
Location: Adelphi University, One South Ave., Garden City, NY 11530 - Woodruff Hall Dance Studio
To Register: \$125/person for general admission. **Registration with a partner is recommended.** Call Noreen DeNicola at (516) 877-4260 or email ndenicola@adelphi.edu

The Argentine Viewpoint

Preventative Maintenance

By Michael Ditkoff

Email Michael at: tangomaniac@optimum.net

Michael Ditkoff has taken 11 years of private ballroom, latin, swing and hustle lessons; eight years of private Argentine Tango, Waltz and Milonga lessons; three years of Embodied Yoga to improve his frame, and six months of Alexander Technique to improve his posture. He was also a dance host on three cruise ships. Michael resumed playing the piano in July 2023, further sharpening his musicality.

Sherry Jean's article "Dance to the End" in the May issue was thought provoking. She wrote about pain that doesn't stop some from dancing. I understand very well considering I have arthritis. She also wrote "I also know others who are lucky in health and ability who can forget that it is mostly luck and not necessarily some sort of proof that they have made the "right" choices."

People spend thousands of dollars on therapists, vacations and cruises to relieve stress in their life. They also maintain their cars to reduce the chance of costly repairs. But when it comes to spending money on body maintenance, it's not as important. This is why obesity is a big problem.

I don't want to rely on luck to be in good health, especially not at my age. I started working out more than 40 years ago but without a trainer. Not only didn't I get results, but I also made costly workout errors that caused problems. (Arthritis is one of them.)

You can't learn how to work out correctly from watching others because they may not be working out correctly. You

THE STUDIO
SOUTHAMPTON NY

can't learn how to dance from watching others because they may not be dancing correctly. Some watch Youtube. Well, if Youtube was so good, nobody would need dance teachers. Also, you can't ask Youtube questions.

Learning how to workout is one thing. You need a trainer to watch how you work out to give corrections. Joe, my Argentine Tango teacher, watched everything I did and gave corrections until they were no longer needed. (That's why I needed eight years of private lessons. There was just so much to correct.)

Judy, my personal trainer, dietician, and physical therapist, monitors everything just like Joe watched my dancing. I see a lot of people working out ineffectively but expecting results.

As we age, it's more difficult for the body to recover from injuries, aches, and pains. There's no guarantee that working out and physical therapy can eliminate them. But there's an excellent chance they can be mitigated so as not to impact dancing.

If you think personal training and physical therapy are expensive, think of the cost of healthcare to deal with aches and pains.

If you want to enjoy your retirement, you need preventative maintenance. Don't wait until it's too late.

The Dance Conversation

To You Who Are Standing Aside

By Sherry Jean Olander

What is it that keeps you from coming to the dances? What is it, that after you found a class, marked your calendar, and perhaps even shown up to the studio or ballroom, that makes you falter and not go after all? Perhaps you have taken a lesson or so, but leave soon after the class ends. Perhaps you watch for a while, toying with the idea of asking someone to dance or hoping that someone asks you, staying far away in a darker corner, not entirely sure you do want to get on the floor...do you know what it is that keeps you standing aside?

I've danced fairly consistently for over a decade, and I've seen beginners start with a bare grasp of rhythm eventually progress into confident dancers. Whatever age, whatever background, whatever skill or style you have – you have a right to find your place on the dancefloor.

Are you afraid? If so, I tell you that is okay. Fear is our friend and partner when something is new. Don't try to push it away! Turn toward it and see if you feel it somewhere in your body. See if you can ask it what it wants you to pay attention to or be careful of. Let it bring you the awareness to notice what you need and the energy to dare this new-to-you thing. (The same applies even if it's something you are returning to after many years away and what you fear is having lost something in that time). Fear has gifts for us if we can stay grounded, present in our bodies, continue to breathe, and listen...we can even learn to dance with it.

Are you waiting for permission? You don't need it but if you want it, take this as a declaration from me: You have my permission. What's more, you have the permission of the dancefloor. It exists before you, wooden and waiting; it will support you if you show up and simply begin. The dance floor holds the memories of every step anyone has taken on it. Mistakes, slips, and even falls – all of these are part of the stories it's seen, and it does not judge these things. It does not bar entry for those who are not perfect. The dance floor, too, has seen the moments of joy, of connection, of love, of pride and confidence, from all those who have stepped before. And that energy beckons you to add your part to its story.

Are you waiting to be “ready”? Well, my friend, this is something that may never fully happen. Usually this is just an excuse used by those of us plagued with perfectionism. It is important to listen to yourself and honor what's true for you, but make sure to ask yourself – what does ready look like? And after that – is this a reasonable expectation of myself? If you need a little time to get used to the idea, then take it, but don't let it take too long. Inertia can get in our way if we let it. Find a way to keep yourself from this trap. Set a deadline, plan a reward for yourself, bring a friend...there are many ways to help yourself cross the threshold. And it's perfectly okay to simply say to a perspective partner “I'm not sure if I'm ready, but I'd like to try.” Humans can be scary, but most of us who dance are pretty cool and understanding people.

Whatever your reasons for standing aside, I want you to know – I see you. If I can, I will speak to you and ask you to dance. Whatever keeps you away, please question it. If you are waiting to dare to find a joy in dancing, please know that the dance, the floor, and the community are waiting for you too.
